Dr. Herbert Scoville, Jr.
2430 E Street, N. W.
Washington 25, D. C.

Dear Dr. Scoville:

Enclosed is a very lucid and timely report by Dr. James R. Killian, Jr. on a subject which merits serious and widespread attention. As you know, Dr. Killian speaks on this subject from a background of very considerable experience. I hope that his cogent words will be read thoughtfully by all who are in a position to help improve this situation, lest the Federal Government continue to find itself short of the trained and experienced manpower required to carry out its responsibilities.

Sincerely yours,

Alan T. Waterman

monumental bore, - but the latter
part is interesting in that Killian
says MINDY is the solution, period.
The action is for a long time*
